South Macomb Letter Carriers Grievant/Witness Statement of What Happened

Name: Joshua Shrum Steward: _____

Grievance Number: RSVL-183-24 Station: Roseville _____

My name is Joshua Shrum, Chief steward of the Roseville Installation for NALC. Ever since Joe Patterson's E.P. on 8/1/2024 i have made many attempts to contact management about this issue. Very little had response. I even attempted to over my OIC's head and talk to his boss, the Poom, everytime i called him i asked him to help me get Patterson back to work because no investigation was taking place. The poom assured me he would take care of it but there was no results. I have also made many attempts to make management aware of how important this case is. I have made every attempt to allow management to meet within the timelines provided. At formal A, I sent the appeal both via email, and physically handed it to J. Isbister, our OIC. They failed to meet at Formal A and at Informal A they had nothing to say. They didnt provide any contentions at all, and they didnt rebut anything that was said. This is very frustrating to see my fellow carrier out on unpaid status with nothing being done, and management has not been taking this seriously.
